voluminous 'Letters from Palmyra,' and 'Letters from Rome,' all of which had their origin in the **KNICKERBOCKER**. As an evidence that the constant additions which are making to the list of writers for the work are calculated to enhance its reputation, we need only mention the series of *Quod Correspondence*, the papers of *Polygon*, the 'Reminiscences of an Old Man,' (The 'Young Englishman,') the 'Edward Alford,' and 'Meadow Farm' articles, the polished *Idleberg Papers*, etc., etc. The publisher has not been unmindful of his duty, but has produced the work in a style of typographical neatness and beauty which will challenge comparison with any periodical in the world. It remains only to say, that as it is the *oldest*, so will the publisher and editor continue to strive to make it the *best* Magazine in the United States. Permanently established, with a fervid *esprit du corps* among its correspondents; and all persons immediately connected with its interests emulous to sustain its character and enhance its value; the **KNICKERBOCKER** will not for a moment be suffered to flag.

Terms—\$5 per annum in advance. Subscribers who will pay \$10 in advance shall be entitled to the four past volumes (1843 and 1844) gratis. All remittances must be made to

NEW-YORK CASH TAILORING ESTABLISHMENT,
(*Granite Building,*)

No. 142 FULTON-ST., NEAR BROADWAY.

This Establishment is constantly supplied with the most *Fashionable and Choice Goods* for Gentlemen's wear, which will be made to order on the *shortest notice*. We still adhere to the *Cash System*, and at the same time assure the public that our garments shall not be surpassed in point of *elegance, style, or richness of materials*, by any Establishment in the Union. The extensive patronage that we have heretofore received warrants us in saying that we *can* and *will* furnish gentlemen with garments of all kinds, combining the foregoing qualities, for *less money* than they can be obtained at any other House in the country.

HALSTED'S
PATENTED
EXERCISING
CHAIRS;

FOR SALE AT
22 Nassau-street,
AND
455 BROADWAY.

The improvement made in the chair within a few days past is such as to free it entirely from noise; it can be used in the room of the sick without the least annoyance—it can be worked by a child; and will occupy no more room than a common chair. For the satisfaction of Dyspeptics and other invalids, certificates of a few of our principal Physicians and Surgeons (who have examined it) are subjoined.

New-York, August, 1844.

The undersigned having been appointed by the Managers of the American Institute, judges on the merits of Surgical Instruments and Apparatus generally, CERTIFY, That we have carefully examined the *Exercising Chair* invented by Mr. O. Halstead. We consider it eminently calculated to answer the purpose for which it is designed, a substitute for carriage, horse, and many other forms of gymnastic exercise; and in many cases, where these cannot be commanded, it combines in a degree the benefits of them all; giving to the muscles of the chest, and to the system generally, the adequate amount of action, being always at hand, and adapted to a great variety of diseases in all seasons of the year, and when the weather will not permit out-door exercise. We cheerfully recommend it to the favorable consideration of the public generally.

New-York, October, 1844.

New York, May 28th, 1844.

I have seen the "Chair" invented by Mr. Oliver Halsted, which appears to me to be an admirable substitute for horseback exercise, which in its motion it most resembles. It has, however, the additional advantage of giving *active* exercise to the arms and chest. It appears to me that it will be highly useful in many cases of inaction of the digestive organs, and of the uterine system; also that it will be a valuable acquisition to all persons of sedentary habits.

(Signed)

R. WATTS, JR., M. D.
Prof. Anat. in College of Physicians and Surgeons.

The exercise-chair invented by Mr. O. Halsted, appears to me to be admirably calculated to supply the place of horseback exercise, when that is impracticable, with the additional advantage of giving much greater action to the muscles of the arms and chest. I cannot therefore too highly recommend it to the medical profession, as a valuable aid in the treatment of many cases of chronic disease, but more especially of dyspepsia, and a sluggish state of the digestive and uterine functions, and of such other disorders as spring from sedentary habits.

(Signed)

JAS. A. WASHINGTON, M. D.

The *Sedentary Traveller's* Chair recommends itself by its simplicity as an effective substitute for exercise, either by horse or carriage. For those invalids unable to enjoy the benefits of the open air, it promises to become a valuable substitute; and in a number of disorders of the digestive organs, it must prove a salutary agent.

(Signed)

JOHN W. FRANCIS, M. D., No. 1 Bond-st.

I concur fully in the above.

The Undersigned, in offering their services as "FORWARDING AGENTS," for the *daily transportation*, in their Express Cars, of Cases of Goods, Packages, Parcels, Specie, Bank Notes, &c., &c., between all the principal Cities and Towns of the United States, and the Canadas, and by the Steamships and Packets to any part of the World, beg leave to state, that through the most active and determined exertions, aided by the experience of some years, they have effected arrangements, and gained such assistance in their various departments, as to insure to them a most thorough system, combining perfect security with the utmost despatch, and they feel assured that they have left no point untried and unguarded for the prevention of errors.

Contracts have been effected with the several Railroad and Steamboat Companies, by which our own crates are conveyed daily, under the charge of our Conductors, and in this particular we have fortunately secured Messengers of energy and trust. Our Agencies have been bestowed with care, upon gentlemen of the strictest business capacities, in whom can be reposed with perfect confidence the purchase or sale of Merchandise, or the transaction of business of any description, within the scope of a "General Agency."

Our instructions are such that Notes, Drafts, and Bills for Collection, receive particular attention, insuring prompt returns, at a small commission for our services, and our facilities in this department warrant us in soliciting the confidence of Merchants generally.

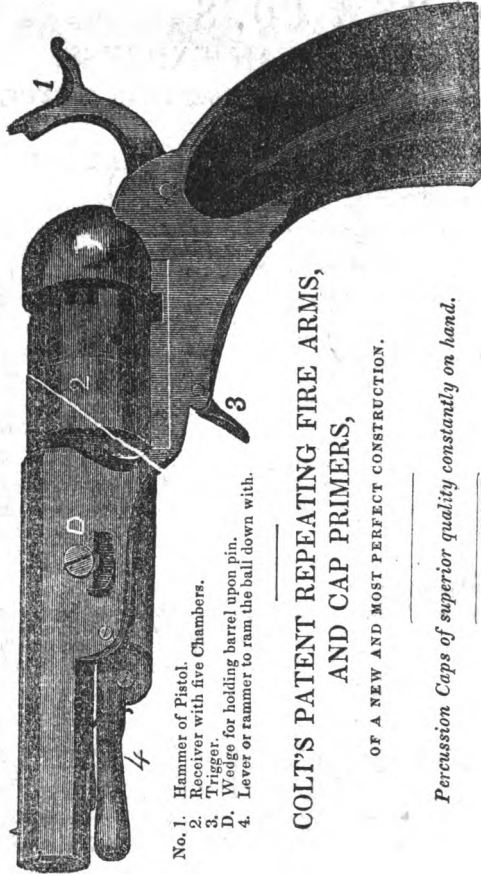

Our prices will always be low in comparison with the facilities given. On Packages or Single Cases, our rates will not exceed those of the ordinary Freight Lines, excepting on Goods for the West, which are transported over the Mountains in Package Wagons in *one-third of the time occupied by the Freight Lines*, while it is a point worthy of careful consideration, that Goods sent through our Express are conveyed under the special custody of Travelling Messengers—a fact that must commend itself to Merchants and others. **THE PUBLIC WILL BEAR IN MIND WE RUN THE ONLY EXPRESS CARS BETWEEN NEW-YORK AND BALTIMORE**

FOREIGN AGENCY.

Our European Agents, Messrs. Willmer and Smith, so favorably known in Europe and America, as the Publishers of the "European Times," possess facilities for forwarding Parcels and Packages to any part of Europe, and for purchasing and shipping Goods in Liverpool and London, which justify us in promising entire satisfaction to all who favor us with Foreign orders or business. The expedition and fidelity with which they transact all matters intrusted to them, are so proverbial with the Press of either country that we need add no word of our own to commend them to general favor.

Custom House Business promptly attended to by Agents who are intrusted with this particular branch. All persons wishing to obtain Goods by our Line are requested to order by "Adams & Co's Express," and all Packages intended for us should be marked in the same manner.

HARDEN & CO.'S PASSENGER ARRANGEMENTS.

HARDEN & CO. will continue to grant Passage Certificates from EUROPE to the UNITED STATES, by the *best Packet Ships only*, they having no connection with transient vessels.

Persons in AMERICA, wishing to send to EUROPE for their *friends*, can purchase of the subscribers a Passage Certificate, which will enable the *emigrant* to leave LIVERPOOL for NEW-YORK on the 1st, 6th, 11th, 16th, 21st, and 26th, and LIVERPOOL for BOSTON, by the best Packet Ships.

When Passage Certificates are purchased of us, *our House* in LIVERPOOL will write and inform the Passenger what day to be ready, thereby preventing the loss of a *single day* in LIVERPOOL, where Passengers will be under our protection till the Ship sails. On their arrival in NEW-YORK or BOSTON, we will forward them to their friends, in any part of the UNITED STATES, thus protecting the emigrant from all the *wrongs* and *vexatious frauds* which they have heretofore had imposed upon them.

Passengers wishing to leave the UNITED STATES for EUROPE, can secure their passage in the above Packet Ships, by applying or remitting to us.

The subscribers are drawing *Bills of Exchange*, payable *at sight* in various parts of EUROPE, from *One Pound Sterling* to any sum required. Persons at a distance, wishing to remit, or procure Passage Certificates, can enclose their money to us, and receive a bill or certificate for the same, by return mail.

In all cases, those sending for Certificates of Passage should furnish the names and ages of all the persons sent for, with their address in full, to be forwarded by us to our LIVERPOOL AGENCY, who notify the party of the proper time to leave home, and give all other necessary information.

Passengers coming out under this arrangement, are relieved from all care and trouble, in passing luggage at the Custom House, or making bargains for passage, either from EUROPE to the UNITED STATES, or on the inland routes in this country, as they are taken under the protection of our AGENTS in LIVERPOOL, and so continued, till they are placed in BUFFALO or CHICAGO, or such other place as they may desire to go in the UNITED STATES or the CANADAS, and in all cases at the lowest rate of passage.

THE AMERICAN REVIEW, A WHIG JOURNAL OF POLITICS, LITERATURE, AND SCIENCE.

This Periodical is published Monthly, at 118 Nassau-st., N. Y.

The terms are Five Dollars a year, payable always in advance. Single numbers fifty cents. Also, five copies for \$20; the amount to be remitted in current New-York funds; or any person becoming responsible for four copies, will receive a fifth gratis.

Each number, containing about a hundred and twelve pages, printed in double columns, on fine paper, will consist of one or two leading political articles, with a variety of literary miscellany, in history, biography, criticism, fiction, poetry, statistics, science, and the arts.

Every third or fourth number will also present a likeness of some distinguished man of the Republic, either of a past or the present generation, executed in the highest style of the art, together with an earnest and truthful biography, which may stand as a part of the history of the nation. No. I. (for January,) contains fine mezzotints of Clay and Frelinghuysen; No. V. (for May,) an engraving, in stipple, of J. Q. Adams.

Taking a deep interest in the work, as one long needed, and capable of wide influence for good over the country, the most eminent Congressional men—Webster, Berrien, Mangum, Evans, Morehead, Archer, Crittenden, John M. Clayton, and others of the Senate, D. D. Barnard, Kennedy, Ingersoll, Winthrop, Geo. P. Marsh, and many others of the House—have consulted together, and pledged themselves to contribute monthly for its pages.

In addition to these congressional names, a number of writers, both political and literary, from all sections, and acknowledged to be among the ablest in the community, have been secured as permanent contributors; and it is confidently believed that this periodical will be inferior to no other at any time issued in this country.

The conduct of the Review will be under the control of George H. Colton, associated however, especially in the political department, with other gentlemen of known standing and attainments.

That no person may hesitate in the matter of subscription, assurance is given that the permanent appearance of this Review is put beyond contingency.

Persons in the country, remitting the amount of subscription, can receive the work by mail, strongly enveloped, or in any other way arranged by themselves; and after July postage will be but 7 cents per number to any part of the Union.

One thing is particularly asked of all who wish to aid the work—SUBSCRIBE DIRECT TO THE EDITOR, G. H. COLTON, 118 NASSAU-STREET, NEW-YORK. It will save an agency discount of 20 or 30 per cent.

All communications to be addressed, *post paid*, to the Editor, G. H. Colton, 118 Nassau-street.

The following are some of the testimonials of the Press, given on the appearance of the February number:

The American Review "is the work which the Whig Party have long needed. It is able, it is judicious, it is dignified. * * * Let the Whigs wisely, generously step forward, and place the Review on a basis of security and conscious power. Ten thousand subscribers would do this, and a fourth have already volunteered."—*TRIBUNE*.

"The second No. of this new Monthly was promptly on our table with the first morning of the month. The number is a capital one, and much the ablest and most valuable monthly which February has sent us. * * * The work supplies a want which has long been deeply felt."—*COURIER AND ENQUIRER*.

"Our friends of the Democratic must nib their pens anew. This month their Whig rivals are clearly masters of the field. Indeed, we have never seen an abler number of any American Magazine, than this second number of Mr. Colton's Review."—*NEW WORLD*.

"The second No. of this excellent Magazine is received, and its Table of Contents is rich indeed. It is conducted with that measure of ability, we think, which must insure its success."—*EXPRESS*.

This extensive and commodious Establishment is one of the most desirable Hotels, not only for Families visiting the City, but also for Gentlemen of business or pleasure, who prefer a more quiet location to that of the lower part of the City. The "CARLTON HOUSE" is situated on the most elevated part of Broadway, commanding a beautiful and extensive view. The Tables are inferior to none, and the Proprietors pledge themselves that no exertions on their part shall be wanting to sustain the reputation the House has already acquired.

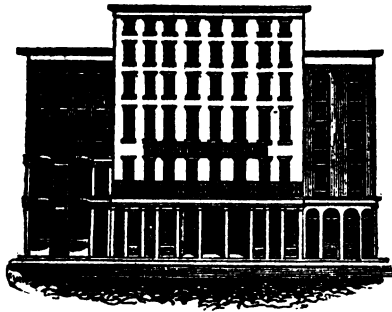

## CITY HOTEL, NEW-YORK.

This Establishment having been refitted and furnished in superior style, is now open for the reception of visitors.

The Subscriber, and Mr. WILLARD, who is associated with him, respectfully solicit the patronage of their old friends and the public.

## CROTON HOTEL, AND CITY TEMPERANCE HOUSE.

This Establishment, located at 142 BROADWAY, N. Y., (and conducted strictly on Temperance principles,) has been in successful operation for two years.

During that time, very extensive additions and improvements have been made, and all *nuisances removed*. The encouragement heretofore received, has induced the Proprietor to make still greater additions, and on the first of May next a Gentlemen's Sitting Room and Ladies' Ordinary will be added.

He expresses many thanks to the travelling public for their very liberal patronage, and hopes by assiduity in business, and particular attention to the wants and comforts of his guests, to merit a continuance of their favor. He has associated with him, as an assistant, Mr. S. Leland, Jr., late of the Clinton Hotel in this City, who will devote his whole time to promote the comfort of those who may wish to find a quiet home while remaining in the City, and who may be disposed to patronize the "*Croton*."

| <p><b>Howard Hotel.</b></p>   | <p><b>HOWARD HOTEL,</b><br/> <b>NEW-YORK.</b><br/> <b>THOMAS &amp; ROE, Proprietors.</b><br/> This well known establishment, at the corner of Broadway and Maiden Lane, in the city of New-York, is now opened under the direction and proprietorship of the undersigned, by whom its high reputation, as an Hotel of the first class, will, it is hoped, be fully sustained. It has been put in the most thorough and complete repair, painted and refitted. Those arrangements which have ever rendered it equally attractive and convenient to men of business, to men of leisure, and to private families, will be continued, the plan still existing of having two different hours for meals, so that all may be suited. This arrangement, it is believed, is a peculiar feature of this establishment, and has proved eminently satisfactory to all its visitors. In addition to the exertions of the undersigned, those of Mr. John Thomas, formerly of the American Hotel, Albany, and late of the United States Hotel, Saratoga Springs, will be used, to insure, as far as possible, the satisfaction of the friends of the House and the public generally. The undersigned look with confidence to the maintenance of that favor with which the "Howard Hotel" has ever been honored.<br/> <b>M. J. THOMAS,</b><br/> <b>STEPHEN R. The location of the Pacific is but one block from Broadway, and the Proprietors pledge themselves that no exertions on their part shall be wanting to render it one of the most <i>comfortable and pleasant</i> houses for <i>families</i>, or for a gentleman of <i>pleasure or business</i>, to be found in New-York. The tables are always supplied with every delicacy of the season, the attendance <i>good</i>, and prices <i>moderate</i>.</p> <p>J. W. BOODY,<br/>W. D. PARSONS.</p> |

Pearl-street  
House.

**PEARL-STREET HOUSE,**  
**No. 88 PEARL-STREET,**  
**NEW-YORK.**

This extensive Establishment possesses advantages to Merchants and others visiting this City over most of the other Hotels in New-York. It is situated in the centre of the commercial operations of the City—the Exchange, Custom-House, Post-Office, and Principal Banks, are within a few minutes walk of this Hotel.

☞ This well known Establishment is now in complete order; its apartments are large, convenient, and airy; and as for the table, suffice it to say, it shall not be surpassed by any. Its location is quiet, and out of the noise of the omnibuses, and within a short distance of BROADWAY and the BATTERY. The Proprietors, ever grateful to the public generally for their liberal patronage, hope to merit, by their attentions and exertions, a continuance of their old customers and friends. Competent servants will be found in every department of this Hotel.

N. B.—Carriages, marked "PEARL-STREET HOUSE," will be in waiting on the arrival of the cars and boats at the principal landings, to convey passengers to the House.

**UNITED STATES HOTEL.**

The Subscriber would most respectfully announce to his friends and the travelling community in general, that he has recently leased the UNITED STATES HOTEL, and is fully prepared to entertain all who may favor him with their patronage.

Having been the past sixteen years engaged in the above capacity, he has no hesitation in saying that all favors extended to him by the public will be duly appreciated, and every satisfaction rendered to the guests who may feel disposed to patronize him.

P. S.—In order to keep pace with the times, he is warranted to change the price for Board per day, from \$1 50 to \$1 25, hoping at the same time, it will meet the full and unqualified approbation of the travelling public.

CLOCKS.

Mills, J. R.
& Co.

J. R. MILLS & COMPANY,

MANUFACTURERS OF CRANES PATENT

TWELVE MONTHS CLOCKS,

No. 109 *Fulton-street*,

NEW-YORK,

Having enlarged their establishment, are now prepared to furnish any number to order, and would respectfully call the attention of the public to the unparalleled improvement and decided advantages this Clock has over all other Time-Keepers now in use.

The great improvement in the time part consists principally in the Escapement, which may be called a Frictionless Escapement; and in the regulating Motion, which may be called a Rotary or Torsion Pendulum. The Ball is four and a half inches in diameter—of a globular form and hollow, and suspended by a steel spring; near the upper end of the spring is an arm in the form of a crank; the revolving ball twists the spring, and causes the arm to perform an arc, acting upon and receiving the impulse from the Swing-Wheel by means of a lever connected with the Arm and the Pallets or Escapement; which impulse is carried through the Spring or Ball, and keeps it in motion. The spring in a quiescent state is longest; by its being twisted either way from that state is shortened, and the ball made to rise, returning by the re-action of the spring, and the force of gravity receiving the impulse from the maintaining power of each return.

There is an irregularity existing in the common Pendulum, by a loss of power arising from an increase of friction, thereby lessening the impulse given to it, and shortening the arc of its vibrations. If it measures true time in an arc of four degrees, it will gain ten seconds a day by vibrating in an arc of three degrees; so that by an increase of friction and loss of power, which is always the case, it will gain time.

Any difference of friction or maintaining power in this Clock, will not affect the time given by this Pendulum; its revolutions or vibrations are rendered perfectly isochronal, by the influence that the torsion of the spring has in its re-action upon the force of gravity of the ball. The different degrees of temperature do not affect the time given by this pendulum. The time it would lose by the expansion of the spring in length, is accurately counteracted by the time it gains by its expansion in width and thickness. The improvement in the striking part consists principally in the application of a Rotary Hammer. Each part of this Clock is driven by a spring equal to seven pounds of weight, for about fifty-four weeks with one winding up.

THE ADVANTAGES ARE—1st. That very little care is required in setting it up, in consequence of its not being so liable to be put out of beat, as other clocks.

2nd. It requires no Oil on the Pallets or teeth of the Swing-Wheel, there being no friction between them, and the number of the revolutions of the Swing-Wheel are sixty times less, or in other words, is sixty years in making as many revolutions as the thirty-nine inch, or second Pendulum Clock does in one year. And it requires more than fifty times less maintaining power, consequently a very large amount less of friction and wear, than in other clocks; and therefore the motion much more regular.

3rd. It will run one year with one winding up; is silent, other than striking the hour; is simple, easily adjusted and regulated; and when so, the time will not be altered, as in other clocks, by the difference of temperature, the density of the air, or by an increase of friction; as it performs its movements always in the same or equal time.

These Clocks have now been in operation about three years. One of them was placed in the rooms of the American Institute, in the City of New-York, in May, 1841—was exhibited at the Fair in October of that year, and a Medal awarded, with the inscription that it was a very ingenious piece of Mechanism. It was then left with one of the Examining Committee until the next Annual Fair of the Institute in October, 1842, and again exhibited at the Fair—and examined by a committee of scientific gentlemen, and awarded a second Medal, with the inscription that it had been fully tested.

J. R. M. & CO., have on hand, and intend keeping a constant supply of Mantle Clocks, of a variety of patterns, with and without glass shades, running from one month or thirty-three days, to one year or three hundred and seventy-five days, with once winding; Also, large time-keepers for Banks, Churches, Public Houses, &c., running a year with once winding. And will also manufacture to order, Turret, Steeple, or Tower Clocks, running from one month to a year.

Johnson, Wm. S.	<p>JOHNSON'S CLOCK MANUFACTORY, OLD ESTABLISHED STAND, <i>No. 16 Courtland-street,</i> NEW-YORK.</p> <p>The Subscriber having been for years engaged in the Manufacture of Clocks, has so increased his business, that he is now manufacturing at the rate of 150 per day. Customers may satisfy themselves of the fact by calling at his store in the same building with the factory, where the large quantity of Clocks, together with the beauty and assortment of the patterns, and the hum of the steam engine, which enables him to produce so many, will convince the sight and hearing of all that he is not to be excelled either in <i>finish, quantity, or quality</i>, by any Establishment in the United States.</p> <p>Particular attention paid to packing, and rendering their safe transportation certain to any part of the world. Exporters and others would do well to call before purchasing elsewhere. WM. S. JOHNSON.</p>

**MEN'S, BOYS' AND CHILDREN'S READY
MADE CLOTHING.**

GEO. A. HOYT & CO.,

No. 22 Bowery,

NEW-YORK,

Being very extensive Manufacturers and Dealers in the above mentioned Goods, take this method of giving notice to those residing in the Southern and Western States, that they can at all times procure at their establishment a neat and tasty article, and of the most recent fashion.

Very particular attention is paid to *Boys' and Children's* clothing; and it is with much confidence that G. A. H. & Co. would call the attention of those living at a distance from the city to a notice of the fact, that by regarding the direction given above, they may send for Boys' and Children's suits with certainty of getting a fit.

G. A. H. & Co. being the only importers of the fashions for Children's Clothing, greater advantages may be derived (as regards style and fashion) by purchasing at their establishment than probably at any other in the United States.

G. A. Hoyt & Co. hope to be able in the course of another season to have an agency established in most of the large cities of the South and West, for the selling of their Boys' and Children's Clothing; but for the present they can only recommend to those who may wish to patronize them to note the directions given, and take an opportunity that may offer of some friend or merchant of their place who may be visiting New-York to send by them. The goods (if desired) will be nicely put up in boxes and sent to any part of the Union.

To Southern and Western Merchants, dealers in clothing, G. A. H. & Co. would say that being fully prepared to sell at Wholesale, they respectfully solicit from them a call at their establishment. They also manufacture at short notice orders for clothing, either furnishing the goods or allowing the purchaser to furnish them at his option.

DAGUERREOTYPES.

Brady, M. B.

**FIRST PREMIUM NEW-YORK DAGUERRIAN
MINIATURE GALLERY,**

Corner of Broadway and Fulton-street,

Entrance third door from Broadway,

Where may be had Miniatures which for beauty of *coloring, tone* and *effect*, cannot be surpassed. By a new process, the dim and shadowy appearance of the pictures formerly so much complained of, is entirely obviated; and Mr. Brady respectfully invites the criticism of a just and intelligent public.

Likenesses in all cases warranted to give satisfaction, and colored in the most beautiful manner by a practical and competent artist.

Ladies, Gentlemen, and all strangers are invited to call at the Gallery, whether they intend sitting or not.

Miniatures taken in all kinds of weather, from 8 A. M. till 5 P. M.

☞ The AMERICAN INSTITUTE awarded a first premium to Mr. Brady at the late Fair.

Instructions carefully given in the art.

M. B. BRADY.

<p>Bishop, L. L.</p>	<p>LOUIS L. BISHOP, From Paris, 285 Broadway, between Chambers and Reade sts., NEW-YORK, DAGUERREOTYPE ARTIST, GILDER AND SILVERER ON ALL METALS, Importer of Plates and Chemicals for Daguerreotype and Galvano-Plasty, Daguerreotype Apparatus, &c. Portraits with or without colors taken in the very best style, every day, and in any kind of weather. Instructions in the art care- fully given. Terms moderate. Superior Gilding and Silvering exe- cuted at a short time's notice, by an improved Galvanic process.</p>
<p>Gurney.</p>	<p>GURNEY'S PREMIUM DAGUERRIAN GALLERY, 189 Broadway, NEW-YORK.</p> <p>Mr. G. would respectfully call the attention of his friends and the public to the great improvements and discoveries he has recent- ly made in the Daguerrian Art. Mr. G. does not claim superior merit from his own opinion; he speaks only the sentiments of his friends when he informs the public that his style of the art, both as regards the durability and perfection of his likenesses and the faithful copying from nature, are alike the admiration of all. Ladies and Gentlemen are respectfully invited to call and examine his pictures, whether they contemplate sitting for a likeness or not. N. B. No charge is made unless perfect satisfaction is rendered.</p> <p>OPINIONS OF THE PRESS.</p> <p>DAGUERREOTYPING.—This art has been brought to great perfec- tion amongst us; American ingenuity improves upon foreign in- vention, and we believe it has been so in regard to the Daguerreo- type. We are told that the Colored Daguerreotype Portraits are produced with greater accuracy in this City than even in Paris; curiosity has led us in passing along Broadway to stop into the rooms of several of the Professors of the art, for the purpose of ex- amining their productions, and we find none so well defined, so life-like, or colored so faithfully after nature, as those of Mr. Gur- ney, at his Daguerrian Gallery, 189 Broadway. His Miniatures are perfect gems.—<i>True Sun.</i></p> <p>The Gallery of Daguerreotype Portraits, taken by Mr. Gurney, at 189 Broadway, should be visited by every person desirous of having their Miniatures taken by Daguerreotype, before they go farther and fare worse, for he takes them with all the various color- ings and shades of countenance and dress, to a degree of perfection not to be surpassed —<i>Sunday Mercury.</i></p>

INSENSIBLE PERSPIRATION.

The preceding figure is given to represent the **INSENSIBLE PERSPIRATION**. It is the great evacuation for the impurities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface, which indicates the wonderful process going forward within. This perspiration flows uninterruptedly when we are in health, but ceases when we are sick. It should be the care of every one to see that it is not checked. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means of nearly all the impurities within us. The blood, by this means, only works itself pure. The language of Scripture is, "In the **BLOOD** is the Life." If it ever becomes impure, it may be traced directly to the stoppage of the **INSENSIBLE PERSPIRATION**. It never requires any internal medicine to cleanse it, as it **ALWAYS** purifies itself by its own heat and action, and throws off all the offending humors, through the **INSENSIBLE PERSPIRATION**. Thus we see, all that is necessary when the blood is stagnant, or infected, is to open the pores, and it relieves itself from all impurity instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface. Thus we see the folly of taking so much internal remedies. All practitioners, however, direct their efforts to restore the **Insensible Perspiration**, but it seems to be not always the proper one. The Thomsonian, for instance, **steams**; the Hydropathist shrouds us in wet blankets; the Homœopathist deals out infinitesimals; the Allopathist bleeds and doses us with mercury; and the blustering Quack gorges us with pills, pills, pills.

But one object only is in view, viz., to **RESTORE** the **INSENSIBLE PERSPIRATION**. If this can be done, they say, we will take care of the rest. It will be seen, therefore, that all physicians understand alike what is necessary to a recovery, how much they may differ as to the mode of obtaining it.

To give some idea of the amount, and consequently of the importance of the **Insensible Perspiration**, we will state that the learned Dr. Lewenhock, and the great Boerhaave, ascertained that five-eighths of all we receive into the stomach, passed off by this means. In other words, if we eat and drink eight pounds per day, we evacuate five pounds of it by the **Insensible Perspiration**.

This is none other than the used-up particles of the blood, and other juices giving place to the new and fresh ones, by carrying with it all the impurities within, up to the surface. To check this, therefore, is to retain in the system five-eighths of all the virulent matter that nature demands should leave the body. And even when this is the case, the blood is of so active a principle, that it determines those particles to the skin, where they form scabs, pimples, ulcers, and other spots; but if it is directed inwards, and falls upon the lungs, the consequences are generally fatal.

By a sudden transition from heat to cold, the pores are stopped, the perspiration ceases, and disease begins to develop itself. Hence, a stoppage of this flow of the juices originates so many complaints. It is through the surface that we imbibe nearly all our ills.

It is by stopping the pores, that overwhelms mankind with coughs, colds, and consumptions. Nine-tenths of the world die from diseases induced by a stoppage of the **INSENSIBLE PERSPIRATION**.

It is easily seen, therefore, how **NECESSARY** is the flow of this subtle humor to the surface, to preserve health. It cannot be stopped, it cannot be even checked, without inducing disease. The blood and intestines must relieve themselves of all their worn-out particles and poisonous humors, and they must go through the pores as nature designed.

Let me ask, now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores, after they are closed, and let the perspiration flow, that the blood may relieve itself of its impurities? Would you give physic to unstop the pores? Or would you apply something that would do this upon the surface, where the clogging actually is? Would not this be common sense? And yet I know

of no physician who makes any external application to effect it. The reason I assign is, that no medicine within their knowledge is capable of doing it. Under those circumstances, I present to physicians and all others, a preparation that has this power in its fullest extent. It is McALLISTER'S ALL-HEALING OINTMENT, or the WORLD'S SALVE. It has power to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon any part of the body, whether diseased slightly or severely. When the perspiration is restored, it has power to penetrate to the lungs, liver, or any other part of the human system, and so to act upon them if they be diseased, by separating the inflamed morbid particles therefrom, and expelling them to the surface.

It has POWER to cause all external sores, scrofulous humors, skin diseases, poisonous wounds, to discharge their putrid matter, and then heals them.

It is a REMEDY that sweeps off the whole catalogue of cutaneous disorders, and restores the entire cuticle to its healthy functions.

It is a REMEDY that forbids the necessity of so many and deleterious drugs taken into the stomach.

It is a REMEDY that neither sickens, gives inconveniences, or is dangerous to the intestines.

This Remedy is probably the only one known that is capable of producing all these great results. Its great value is in restoring, *AR OXER*, the circulation of the juices when checked or disarranged by colds or other causes. It preserves and defends the surface from all derangement of its functions, while it keeps open the channels for the blood to void all its impurities and dispose of all its useless particles. There is a connection, harmony, and feasibility in it all that defies contradiction. It is a simple but wonderful principle that preserves in healthy operation the entire machinery of our being. It indissolubly holds together the SURFACE and the INTERNAL VISCERA, the Internal Viscera and the Surface. They are inseparably connected and cannot be disjoined. The surface is the outlet of five-eighths of the bile and used-up matter within. It is pierced with MILLIONS of openings to RELIEVE the intestines. Stop up those pores, and DEATH knocks at your door. It is rightly termed All-Healing, for there is scarcely a disease, external or internal, that it will not benefit. It will be found the most useful as well as the cheapest family medicine in the world. I have used it for the last fourteen years with success beyond a parallel. I have used it for diseases of the chest, consumption, liver, and the most dangerous of internal maladies. I have used it in cases of extreme peril and hazard, involving the utmost danger and responsibility, and I declare before Heaven and man, that not in one single case has it failed to benefit, when the patient was within the reach of mortal means.

I never, to my recollection, had more than five or six, among the thousands who have used it, say that it was not favorable to their complaint. On the contrary, I have had hundreds return voluntarily, and in the warmest and most pathetic language speak in its praise. I have had Physicians, learned in the profession—I have had Ministers of the Gospel, Judges on the Bench, Aldermen, and Lawyers, gentlemen of the highest erudition, and MULTITUDES of the POOR, use it in every variety of way, and there has been but one voice—one united, universal voice, saying, "McAllister, your Ointment is good."

DISEASES, AND THEIR CURE.

CONSUMPTION.—Of all diseases, we find this the most important, and concerning which we meet with the most opposition. It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system. But we say once for all, that this Ointment will reach the lungs quicker than any medicine that can be given internally. Every body consents to the fact, that if a healing medicine could be applied ON the lungs, there would be great hopes of recovery. The difficulty is to get the medicine there. Now the salve has the wonderful virtue of extracting the putrid, diseased humors from all external sores, by causing them to discharge. In like manner it operates upon internal affections, by driving all the impurities through the pores, to the surface. Thus with Consumption, if placed upon the chest, it penetrates directly to the lungs, separates the poisonous particles that are consuming them, and expels them from the system.

It is the simplest and most rational process in creation, if one has the medicine capable of doing it. The All-Healing Ointment possesses this power to its fullest extent. I need not say that it is curing persons of Consumption continually, although we are told it is foolishness. I care not what is said, so long as I can cure several thousand persons yearly. If this medicine was in the hands of some patent medicine brawlers, they would make an uproar through the country that would be insupportable.

SCROFULA, or KING'S EVIL.—This disease is really inveterate, and hard to be subdued. It is generally seated in the sides of the neck, behind the ears, and under the chin, yet scarcely any part of the body is exempt. It sometimes falls on the lungs, and produces Consumption. It is a dreadful circumstance that this disease is transmitted from parents to children. The Salve will extract all the morbid matter, by causing the sores to discharge; and then let the Solar Tincture be used to drive it to one point, which done, a continuance of the Ointment will completely remove the disorder. This is probably the safest and most effectual of any method. It should be adopted without a moment's hesitation.

ERYSIPELAS.—This complaint arises from impurities being driven out to the surface by means of the INSENSIBLE PERSPIRATION, and lodging in the cuticle, forms sores, pimples, &c., it being of a caustic, acrid, putrefying nature. It only requires that it should discharge its virulent particles through the skin, and the difficulty will pass off. If suffered to remain, and driven inward, it is frequently fatal. Let the Salve and Solar Tincture be used as in Scrofula, and the patient will soon get well.

SALT RHEUM.—This is another obstinate disease, but can be cured as effectually as the Scrofula. There is no difficulty in this disease.

HEADACHE, EARACHE, and DEAFNESS.—The Salve has cured persons of the Headache of twelve years' standing, and who had it regularly every week, so that vomiting often took place. It cured the wife of a man who laughed in my face for proposing such a cure, and who now would not be without it for the best farm in the State. If any one will take the trouble to call, I will give his name. Deafness and Earache are helped with the like success, as also Ague in the Face.

COLD FEET.—Consumption, Liver Complaint, Pains in the Chest or Side, Falling of the Hair—one or the other always accompanies cold feet. It is a sure sign of disease in the system to have cold feet. Some persons are totally unable to get them warm, and endure much suffering thereby. The Salve will restore the Insensible Perspiration, and thus cure every case. It is infallible for this.

ASTHMA, TIGHTNESS OF BREATH.—If this disease is not hereditary, and produced by a malformation of the chest, the Salve will cure it.

DYSPEPSY.—One would suppose a salve would not affect this disease much, but the All-Healing Ointment will cure two sooner than any internal remedy will one.

SORE EYES.—The inflammation and disease always lies back of the ball of the eye in the socket. Hence the inutility of all remedies that are used upon the lids. The virtue of any medicine must reach the seat of the inflammation or it will do little good. This salve, if rubbed on the temples, will penetrate directly into the socket, and infuse all its virtues upon the disorder. The pores will be opened, a proper perspiration will be created, and the disease will soon pass off to the surface. How easy and how natural! It is as perfect and valuable as it is simple and philosophical.

SORE LIPS, CHAPPED HANDS, &c.—I sell a great deal of salve to seamen, who say it is the only thing they can depend on to cure their raw hands, when exposed to the weather at sea. It acts like a charm in these complaints. Two or three applications cure.

PIMPLES, FRECKLES, TAN, &c.—Its first action is to expel all humors. It will not cease drawing until the face is free from any matter that may be lodged under the skin, and frequently breaking out to the surface. It then heals. When there is nothing but grossness, or dull repulsive surface, it begins to soften and soften, till the skin becomes as smooth and delicate as a child's. It throws a freshness and blushing color upon the now white, transparent skin, that is perfectly enchanting. Sometimes in case of Freckles, it will first start out those that have lain hidden and seen but seldom. Pursue the salve and all will soon disappear.

The reason for this wonderful change in a lady's face is, that it excites into natural and healthy activity the Insensible Perspiration, while it renovates and renews the surface, which leaves the skin in as lively and delicate a condition as the most fastidious could desire. It is put up in fine jars, and beautifully scented, on purpose for the toilet.

BURNS.—Life can always be saved if the vitals are uninjured. I have so many testimonials for the cure of this complaint, that I could fill a book. I suppose there is not a family in the United States that would consent to be without the salve a single day, if they knew its balm in healing Burns alone. It extracts the pain, and leaves the place without a scar.

QUINCY, INFLUENZA, AND BRONCHITIS.—No internal remedy in existence will cure these disorders as quick as this salve. It opens the pores on the neck, and draws off the inflammation and impure juices, and a few days see the patient well. It is sovereign in these cases.

PILES.—The salve acts upon the Piles as upon sore eyes. There is an inflammation which must be drawn from the parts. The salve does this.

HERNIA OR RUPTURE.—This salve has cured some very bad cases of rupture, and although it might not all, yet it would be wise to try it. It is a peculiar complaint, but it may be helped some, if not cured entirely. I have not the shadow of doubt that it would cure thousands, if a trial was made, who believe no medicine of the least benefit.

Two shillings' worth would satisfy any one whether it would do good or not.

WORMS.—If parents knew how fatal most medicines were to children, taken inwardly, they would be slow to resort to them. Especially "mercurial lozenges," called "medicated lozenges," "vermifuges," pills, &c. Even were it possible to say positively that worms were present, it is not safe. The truth is, no one can tell, invariably, when worms are present. Of course the remedy is not applicable to the complaint. Now let me say to parents, that this salve will always tell if a child has worms. Let it be rubbed on the neck and chest, to keep them from going up, and then down on the bowels, and they will soon leave. It will drive every vestige of them away. This is a simple and safe cure. No injury can come of it any way. But should it be choleric, inflammation of the bowels, or gripe of the intestines, it will effectually cure them as the worms.

There is probably no medicine on the face of the earth at once so sure and safe in the expulsion of worms.

It would be cruel, nay wicked, to give internal, doubtful medicines, so long as a harmless, certain, and effectual external one could be had.

INFLAMMATION OF THE BOWELS, CHOLIC, &c.—Let the salve be rubbed in and heated with the fire or hot flat irons, and all pains and difficulty will soon cease.

SWELLINGS—Of the Joints, or weakness, or any affection of the Bones, nothing is so good as this salve.

POISONS.—I never knew any thing so good as this salve. It causes the poison to discharge immediately, and leaves not the slightest cause of alarm. Poison by nails, bites of animals, or burns, it removes when nothing else will.

TOILET.—I have it done up in fine order for the dressing-case. Although I have said little about it as a hair restorative, yet I will stake it against the World! They may bring their Oils far and near, and mine will restore the hair two cases to their one. These are no idle words, for I am ready to back it with any reasonable amount.

OLD SORES, ULCERS, &c.—There is no effectual way of curing these, but by drawing off the putrid matter. To merely dry it up would only endanger one's health more. That some Sores are an outlet to the impurities of the system, is the only reason, because they cannot pass off through the natural channels of the Insensible Perspiration. If such Sores are healed up, the impurities must have some other outlet, or it will endanger life. This is the reason why it is impolitic to use the common salves of the day in such cases. For they have no power to open other avenues, to let off all this morbid matter, and the consequences are always fatal. This salve will always provide for such emergencies. There need be no fear. It is perfect.

BROKEN BREAST.—Persons need never have a Broken Breast. The salve will always prevent it, if used in season.

LIVER COMPLAINT.—Persons with this disease frequently have eruptions of the hands, face, and other parts, and never once think that it arises from the liver. Their utter inability to remove these eruptions, proves the misapprehension of the disorder. Such must use it first on the feet, then wear it on the chest, and the difficulty will soon go away.

ILLIAC PASSIONS.—This disease caused the death of the late accomplished Hugh S. Legare, Attorney General, and acting Secretary of the United States. It is the stopping up of the smaller intestines, and sometimes the twisting of them. It is brought on by a neglect of the daily evacuations, or from incarcerated Hernia. The pains are awful, and unless help comes speedily, the sufferer soon dies.

The All-Healing Ointment would have saved the life of Mr. Legare, and all others under similar circumstances.

All pains, gripings, inflammations, and disorders of the bowels, will be relieved, if not effectually cured.

CORNS.—If the salve is used according to directions, people need never be troubled with Corns, especially cut out by some travelling mountebank, who knows he is doing more mischief than he can possibly repair. A little of this Ointment put on now and then will always keep them down.

Indeed there are few complaints that it will not benefit. It is a family salve of untold value. As long as the sky rolls over one's head, and the grass grows upon the earth, it will be sought after, used, and valued. As there is no mercurial substance in it, but composed entirely of vegetables, it gives no ground for apprehension.

RHEUMATISM.—When this disease is located in any one point, the salve will help it wonderfully. It will reduce swellings, extract the inflammation, and lengthen contracted cords almost immediately. It is valuable indeed for this painful disorder. It will also remove the gout; perhaps nothing can be placed upon the toe that will so speedily take away all pain. Let those who suffer from these complaints try a box, which costs but two shillings, and we doubt not they will be perfectly satisfied of the wonderful value of this Ointment.

## DRUGS, MEDICINES, PAINTS, AND DYE STUFFS.

A. B. &amp; D. SANDS,

WHOLESALE DRUGGISTS, 79 FULTON STREET, CORNER OF GOLD,  
NEW-YORK,

OFFER FOR SALE, on the most advantageous terms, for Cash or approved credit, a large and well-selected assortment of Druggists' and Manufacturers' Articles; East India, Mediterranean and European Drugs, Paints and Oils; Perfumery, Fancy Soaps, Fancy Articles, Surgical Instruments, Hatters' Goods, Brushes, Window Glass, Leeches, Trusses; French, English and American Chemicals of all kinds, Bronzes, Dye Stuffs, Saratoga Waters, Patent Medicines of every description, Shaker Herbs, Roots and Extracts, Druggists' Labels, &c. &c.

A. B. & D. S. flatter themselves that they can offer inducements to the trade, not surpassed by any other establishment in any of the Atlantic cities—as their facilities are such as to enable them to avail themselves of the advantages which the different European and American markets afford—and trust that purchasers will find it to their interest to call and examine their stock before purchasing elsewhere.

## SANDS' SARSAPARILLA,

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD OR HABIT OF THE SYSTEM.

This preparation is a combination hitherto unknown in the history of Medicine, differing entirely in its character and operations from the various preparations of Sarsaparilla which have been at different times offered to the public. It acts specifically upon the whole system, thereby bringing it under its direct and immediate influence. Although possessed of powerful healing effects, yet it is entirely harmless, so that it cannot injure the most delicate constitution. When in perfect health, no effect is produced by its use, except an increase of appetite; but when disease is seated in the frame, and carrying fast its victim along the path of life, then its mysterious influence is felt and seen; it enkindles new life and vigor, and brings health and strength to the suffering and diseased. The magnetic fluid does not find its way with more certainty along the telegraphic wire to a given point, than does the disinfecting and restoring influence of this preparation to the seat of disease. Scrofulous Ulcers, Tumors, hard or soft, Rheumatism, Scurv, Erysipelas, Dyspepsy, General Debility, Mercurial Complaints, Tetter, Ringworm, Salt Rheum, Leprosy, Scald Head, and all hepatic disorders, are relieved by its use. The inventors do not pretend to infallibility, but so far as they have had an opportunity of observing or knowing the effect of their Extract, it has by the blessing of Providence been uniformly beneficial.

A mass of the most overwhelming testimony could be brought forward, proving most conclusively its inestimable value as an active and curative medicine.

The afflicted, or those who may have been given up in despair, and all who are interested, are invited to make a trial of this valuable medicine, or to call on those who have come forward and borne public testimony of its priceless value to them, and satisfy themselves individually of its power in arresting and curing disease, and of what it has done for others.

The following interesting case is presented, and the reader is invited to its careful perusal. Comment on such evidence is unnecessary.

NEW-YORK, July 25, 1844.

MESSRS. SANDS: GENTS,—I consider it but an act of justice to you to state the following facts in reference to the great benefit I have received in the cure of an obstinate *Cancerous Ulcer* on my breast.

I was attended eighteen months by a regular and skillful Physician, assisted by the advice and counsel of one of our most able and experienced surgeons, without the least benefit whatever. All the various methods of treating cancer were resorted to; for five weeks in succession my breast was burned with caustic three times a day, and for six it was daily syringed with a weak solution of nitric acid, and the cavity or internal ulcer was so large that it held over an ounce of the solution. The Doctor probed the ulcer and examined the bone, and said the disease was advancing rapidly to the lungs, and if I did not get speedy relief by medicine or an operation, the result would be fatal. I was advised to have the breast laid open and the bones examined, but finding no relief from what had been done, and feeling I was rapidly getting worse, I almost despaired of recovery, considered my case nearly hopeless.

Seeing various testimonials and certificates of cure by the use of "SANDS' SARSAPARILLA," in cases similar to my own, I concluded to try a few bottles, several of which were used, but from the long, deep-seated character of my disease, produced no very decided change. Considering this as the only probable cure for my case, I persevered, until the disease was entirely cured. It is now over eleven months since the cure was completed; there is not the slightest appearance of a return.

I, therefore, pronounce myself WELL, and the cure entirely effected by "SANDS' SARSAPARILLA," as I took no other medicine of any kind during the time I was using it, nor have I taken any since. Please excuse this long-deferred acknowledgment, which I think it my duty to make. Your valuable Sarsaparilla cured me, with the blessing of Divine Providence, when nothing else could, and I feel myself under lasting obligations to you. I can say many things I cannot write, and I do most respectfully invite ladies afflicted as I have been to call upon me, and I will satisfy them fully of the truth as stated above, and many other things in reference to the case.

NANCY J. MILLER, 218 Sullivan-street.

The following extract from a letter just come to hand, will be read with interest. The writer, Mr. Almy, is a gentleman of the first respectability, Justice of the Peace, &c. The patient suffered for years with Fever Sores on his legs, and could find no relief until he used Sands' Sarsaparilla. Mr. Almy, writing at the request and on behalf of the patient, Jonathan Harris, says:

BROOKLYN, CONN., July 10, 1844.

Gentlemen—It has once more become my duty to communicate to you the situation of Mr. Harris, and you may rely upon it I do so with the utmost pleasure. Mr. Harris says that four of his sores are entirely healed up, and the remaining are fast doing so. He further says he has no pain in the affected limb whatever; that his sleep is of the most refreshing nature, and his health in every respect very much improved; so visible is the change, that all who see him exclaim, "What a change!" and earnestly inquire what he has been doing? He has gained in flesh very much, and is able to work at his trade (which is that of a shoemaker) without any inconvenience. This is the substance of his narrative; but the picture I cannot in any way here do justice. The manner, the gratitude, the faith, and the exhilarating effect upon his spirits, you can but faintly imagine. He requests me to say he will come on and see you as surely as he lives. May God continue to bless your endeavors to alleviate the miseries of the human family, is the fervent prayer of your sincere friend,

HUMPHREY ALMY, Justice of the Peace.

HATS.  
FASHIONABLE HAT ESTABLISHMENTS.

Beebe &  
Costar.

BEEBE & COSTAR,  
HATTERS,  
156 Broadway,  
NEW-YORK.

An extensive establishment for the manufacture and sale of *Hats* and *Caps* has recently been opened at the above place by the proprietors, in a style of elegance probably unequalled by any other in the world. Combining within itself every facility for *complete workmanship*, with all the latest improvements in machinery; employing only the most *scientific* and *experienced workmen*, and using *material* of the very best quality alone, they are enabled, with the aid of long practical experience, to produce a quality of Goods superior to any thing in this or any other market. To the *retail customer* they are prepared to furnish a description of Goods warranted to give the most eminent satisfaction in *fashion, durability* and *intrinsic worth*.

The *Wholesale Dealer* will find inducements to purchase, in the fullest and best selected assortment to be met with in the trade.

The *Fashion* for the successive seasons is regularly introduced and universally allowed to surpass all others in point of *beauty* and *merit*.

The *Paris* and *London* fashions, coming direct to them from the first houses in those cities, will always be kept on hand for the purpose of accommodating those that may give them the preference.

*Gentlemen's, Youths' and Children's Hats and Caps, Ladies' Riding Hats and Caps*, of new and elegant patterns, constantly ready.

A select variety of *Umbrellas, Canes, Carpet Bags, &c.*, at the lowest possible prices.

N. B. Their terms of sale will be found most liberal and accommodating, and every effort used to entitle them to the patronage of a discriminating public.

**KENT'S COMMERCIAL WRITING INKS,**  
**PREPARED BY**  
**EDWARD N. KENT, CHEMIST,**  
*No. 116 John-street, (near Pearl,)*  
**NEW-YORK.**

At three Annual Fairs of the AMERICAN INSTITUTE, the First Premium has been awarded to EDWARD N. KENT, for the best WRITING INKS, exhibited for competition.

These Inks are put up in very neat strong glass bottles, (which are superior to stone, in consequence of the liability of the latter to absorb the limpid portion of the Ink,) with a beautiful xylographic label, printed in two colors, and each bottle is wrapped in paper, ready to retail.

It is unnecessary to publish the numerous Literary Notices, Testimonials, &c. which have appeared in favor of these Inks, with the exception of the following from the justly celebrated Dr. Chilton, whose reputation as a practical Chemist, renders the publication justifiable.

(Copy.)

New-York, Nov. 5th, 1841.

I have from time to time, examined the Inks manufactured by Mr. Edward N. Kent of this City, and have found them to be of excellent quality. Mr. Kent's Black Ink flows freely from the pen, and possesses a fine black color. His fancy colored Inks, are particularly prized, for the richness and durability of their colors.  
 (Signed,) JAMES R. CHILTON, M. D.

The subscriber is prepared to furnish analyses of Ores, Minerals, Soda and Potashes, Foreign Inks, &c., &c., and will manufacture rare Chemicals to order, on the most reasonable terms.

## LOCKS.

Day &  
Newell.

## NEWELL'S PARAUPTIC BANK LOCK,

*Warranted effectually secure in every instance.*

The unexampled celebrity which these Locks have obtained, since their introduction to the public, has induced the Proprietors to subject them, at different times, to the most severe tests, in order to prove satisfactorily to all, that in no instance can they be opened without the *true and legitimate* KEY. It has been repeatedly placed in the hands of persons intimately acquainted with mechanics, with leave to exercise all the ingenuity in their power, in order to pick it, and yet no one has been able to effect an entrance.

We unhesitatingly pronounce it *invulnerable*.

Our Parauptic Bank Lock is now in use on nearly *One Hundred* banking and other institutions in the United States, and has been recently ordered for the vaults of an extensive banking house in ENGLAND, upon whose doors some of the *best constructed locks* of that country have proved *insecure*!

The sample of *American* skill, which we send them, we challenge the *WORLD* to equal, in all the requisites of a *Perfect Safeguard*, where valuables of any kind are concerned.

We might adduce very many certificates of the high estimation in which our lock is held by those who have them in use. We prefer, however, to refer the public to our standing CHALLENGE, (with \$500 or \$1000 stakes,) to meet the proprietor of ANY OTHER LOCK now known, when, with equal facilities, we engage to *pick the lock* of our antagonist, he, meanwhile, being totally foiled in all attempts upon our own. Among the many vaults and doors now secured by our locks, we would mention those of the COMPTROLLER'S OFFICE IN THE STATE DEPARTMENT AT ALBANY; UNITED STATES CUSTOM HOUSE IN THIS CITY; Bank of America, Chemical Bank, North River, and Mechanics' Bank, New-York city; Canal Bank and Albany City Bank, Albany; Suffolk Bank, Boston; Canal Bank, Portland; Phoenix Bank, Hartford, Conn.; Union Bank of Tennessee, Nashville; Ohio Life Insurance and Trust Co., Cincinnati; State Bank of Indiana, &c. &c.

In an affair of so much moment to all who have treasures to secure, we request a personal conference, or communication through the mails. We are confident of giving entire satisfaction to every one who shall address us on this subject.

N. B. Every Bank Lock manufactured by us, has the name of the Patentee stamped upon the head of the bolt.

Constantly on hand every variety of dwelling-house Locks, such as Rim, Mortice, Front Door and Sliding Door Locks, which are fitted up with Glass, Mineral, Ebony or Silver Plated Furniture, at the Old Establishment,

**NEW AND COMMODIOUS WAREROOMS,**

*No. 228 Pearl-street, New-York.*

R. C. B. has found it necessary, in order to carry out the extensive arrangements he has made, and also for the greater convenience of the numerous Southern and Western Merchants who have found it to their interest to purchase of him, to remove from No. 11 Park Row to the above spacious and commodious Depot, where, he confidently asserts, from the facilities he enjoys in manufacturing his own frames, and directly importing his plates, that he is enabled to supply Merchants, and the trade generally, with an article which for beauty of finish cannot be excelled, and at prices that cannot be equalled.

Merchants will do well to call and examine his stock before purchasing elsewhere, as he feels satisfied that an inspection is all that is necessary to insure a sale.

**NUNNS & CLARK**

Having purchased the patent right for "Coleman's Æolian Attachment to the Piano Forte," for the entire United States, (excepting Massachusetts,) announce to the public, that they are now prepared to supply Piano Fortes with this improvement attached, or to attach the same to any modern made horizontal Piano Fortes. In regard to the durability of his invention, N. & C. are prepared to satisfy the most prejudiced mind. Their own critical examination and experiments warrant them in the assertion, that the "Æolian" will remain in tune in any climate, and it will not be affected by transitions of atmosphere. The most satisfactory warranty is given with each instrument.

The public are invited to examine the "Æolian Piano Fortes," at their ware-room,

EXECUTED IN THE MOST APPROVED STYLE.

Our office is arranged upon a plan of convenience, safety, and system, well adapted to the accommodation of publishers and authors. Our founts of Type, from Agate to Pica, are new and very large, enabling us, with our other means, to print works of every description, both Letter-Press and Stereotype, from the smallest Job to the largest Volume, with the utmost accuracy and dispatch.

In the CLASSICAL AND ORIENTAL DEPARTMENT of our business we are prepared to print in the following languages, viz: Greek, Hebrew, Syriac, Arabic, Samaritan, Ethiopic, and Coptic. We have in our employ experienced and accurate Compositors, regularly trained to this branch of the business; and a gentleman of education and experience as Proof-Reader for this Department especially.

**PREMIUM RAZOR STROPS.**

The first premium of the Fair of the American Institute has been awarded year after year to G. Saunders, for the invention of the **METALLIC TABLET**, with four sides, No. 1 side having the effect of a hone, without using oil or water, the other sides are for keeping the Razor with a fine smooth edge; so that with one of them Razors can be kept in perfect order, without having recourse to cutler or barber. It is used and recommended by the first cutlers of England, and certificated by the most scientific gentlemen in this country. Its great celebrity has caused counterfeits and imitations innumerable, which can easily be detected by the coarse and imperfect surface of what is called the Tablet side, the original being smooth and polished.

STEWART'S

PATENT  
SUMMER  
COOKING

AIR-TIGHT  
AND WINTER  
STOVE,

*To which was awarded the Silver Medal at the last Fair of the American Institute.*

This Stove is warranted to perform all culinary purposes in the most perfect manner, and at the same time to consume less fuel than any cooking apparatus in the market. This Stove will produce all the heat required in winter for warming the room, and in the summer, by using the summer covering, will not heat the room any more than an ordinary furnace for burning charcoal, and will perform all the work of cooking at less expense than Furnaces and Summer Ovens.

Numerous imitations are now in the market, calculated to deceive by their outward appearance.

N. B. The principle which has rendered this Stove so popular with the public is secured by patent: the only original and genuine, together with Hall, Parlor and Office Stoves, is for sale at

WILSON'S IMPROVED PATENT

SHIP AND

STEAMBOAT

**CAMBOOSE COOKING STOVE,**

Single, Double and Treble Ovens, of various sizes and prices, with large sunk hearth for the purpose of Boiling and Broiling in front, sliding doors to oven, instead of swinging on hinges or dropping, preventing the removal of the sauce pans or boilers cooking on said hearth in front; with the greater convenience in the introduction of his Patent Guard Plates and Hot Air Chambers, giving the most perfect equality of heat to the ovens, never before attained in a ship's camboose.

Warranted superior to all others for durability and economy in the saving of fuel, either coal or wood; the present new arranged boilers with patent caps at the ends preventing the liquid from spilling by the motion of the ship.

Also kept constantly on hand the greatest variety of Portable Cooking Ranges, entirely new, including his Patent Union Stove for Families, with all the patented improvements above named, suitable for the largest Hotels and Steamboats down to the smallest families. All of which will be sold at reduced prices at the old stand,

Fox, E.

# THE OLD ESTABLISHED CITY CASH TAILORING

AND

GENERAL FURNISHING ESTABLISHMENT,

No. 202 BROADWAY,

(Between Fulton and John streets,)

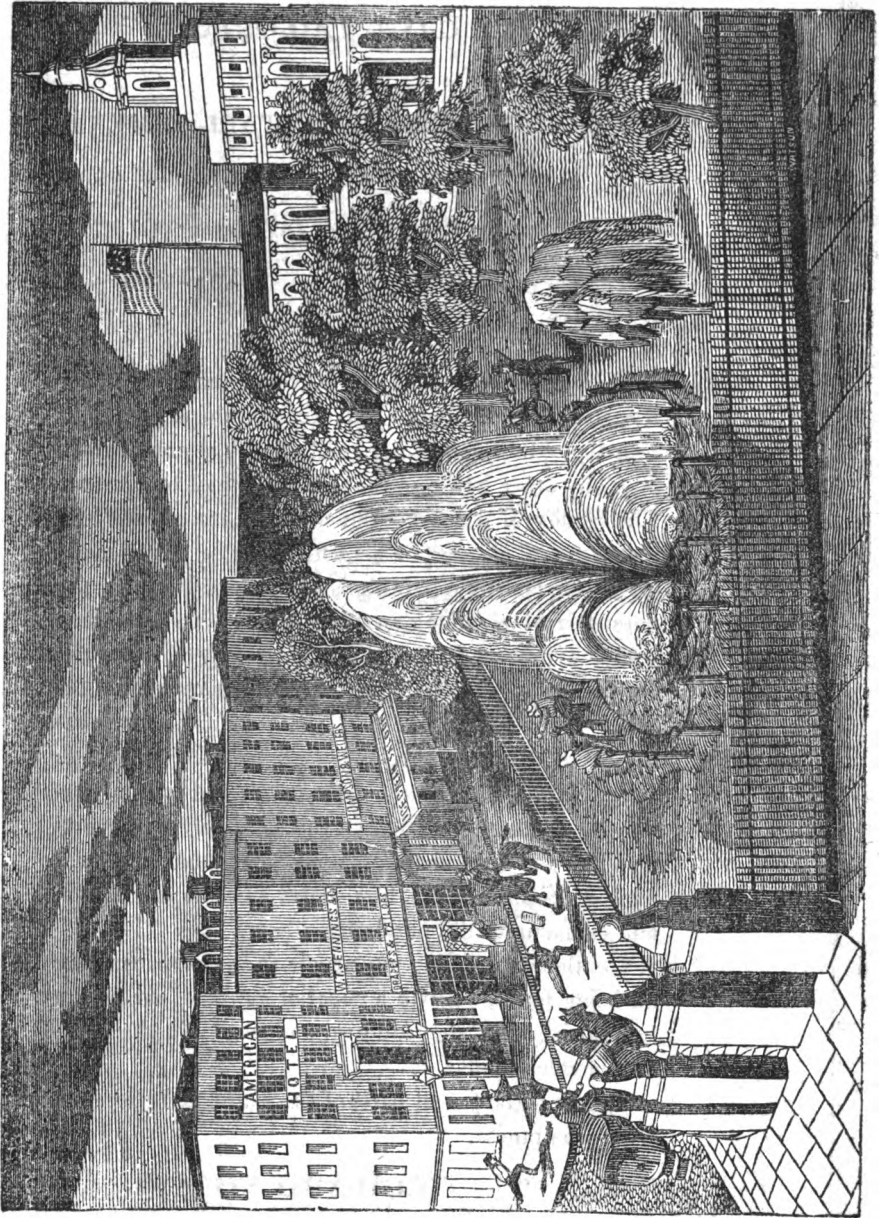

NEW-YORK.

The extensive assortment of Gentlemen's Wearing Apparel to be found at this Establishment, together with the quality and price, will challenge competition from any other house in the United States or Europe. The facility of a market out of the City enables the Proprietor to dispose of all unseasonable ready-made garments, and thereby affords an opportunity to the purchaser of obtaining an outfit strictly in accordance with the present fashion. His long experience in the business as a practical operative, and the reputation already achieved, have been attested from past patronage, which may be presumed to arise from this fact, that he has invariably secured, and is now employing the best workmen in this City—every department in the manufacture being conducted with the view of producing the best finish in taste, durability, and economy to the purchaser.

Gentlemen ordering any article to measure, can rely on being furnished with a superior garment, cut by the best artizans in the country, and made in the most fashionable manner.

Orders taken for all parts of the world, and executed with promptness.

**EDWARD FOX,**  
CITY CASH TAILORING ESTABLISHMENT,  
*202 Broadway, near Fulton-street.*

**ESTABLISHED 1825.**

**DRAPERS AND TAILORS,**  
IMPORTERS OF CLOTHS, CASSIMERES, VESTINGS,

**Fancy Dress Articles, &c.**

**231 BROADWAY, AMERICAN HOTEL,**

**NEW-YORK,**

Have always on hand an extensive assortment of new and seasonable Goods, which will be made up to order through the aid of as efficient a corps of cutters as can be found in the country, in a style which must insure a continuance of the liberal patronage heretofore elicited; whilst the assurance of a continuance of the system of small profits and quick returns cannot fail to be appreciated by the cash purchaser.

**SILVERS & ARMITAGE,  
MERCHANT TAILORS & CLOTHIERS,**

*No. 23 Wall-street,*

NEW-YORK.

It is the intention of the Subscribers to make their Establishment the Grand Emporium of the LATEST FASHIONS, and they pledge themselves that the STYLES and WORKMANSHIP both of their CUSTOM-WORK and READY MADE CLOTHING, shall not be surpassed by any establishment of the kind in the Union. Samples of the different styles always on hand, which CITIZENS and GENTLEMEN VISITING THE CITY are particularly invited to examine.

S. & A. do not announce that they will sell for *less than others*, but they DO announce that they sell for a SMALL ADVANCE FROM COST. The Goods will be shown, the Prices named, and Gentlemen will be capable of judging for themselves relative to their cheapness.

J. SILVERS, having spent seven years in the extensive Clothing Establishments of Messrs. Squire & Ross, of Rahway, N. J., and of Messrs. Allen & Co., of Newark, N. J., trusts that the experience he has thus acquired will be a sufficient guarantee to purchasers, that the articles manufactured by the Subscribers will be inferior to NONE in point of ELEGANCE and WORKMANSHIP.

In connection with the above business, the Subscribers will keep constantly on hand a supply of

**CLOTHS, CASSIMERES, VESTINGS,  
AND TAILORS' TRIMMINGS,**

Which they will sell at WHOLESALE AND RETAIL, at a small advance, *for cash.*

JOHN SILVERS.

SAMUEL ARMITAGE.

**NOTICE.**

Having tested the skill of Messrs. SILVERS & ARMITAGE in the fitting of Garments, we feel a pleasure in stating that we believe them inferior to no artists of the kind in the City, not only for *elegance of fit*, but also for *quality of workmanship*.

Corner of Leverett and Second streets,
BOSTON,

Where they have every facility for the manufacture of every description of Church Organs, comprising an extensive factory built expressly for the purpose; a large stock of most thoroughly seasoned wood of various kinds, some of which has been stored upwards of twenty years, rendering it invaluable for certain purposes; first-rate workmen in the various branches, who have been for a long time in their employ; which, together with great personal experience and unremitting application, enables them to present inducements worthy the consideration of the public.

In the department of Reed Stops they have attained a degree of mathematical precision hitherto unequalled, which enables them to produce Reeds of the most perfect quality and uniformity of tone and promptness of intonation, as well as the property of standing in tune in an unusual degree.

They have supplied many of the principal churches throughout the country with Organs, among which are several of the largest class. They would refer to the following: the church of the late Dr. Channing, the Tremont Temple, and the church of the Holy Cross, in Boston; the Rev. Dr. Dewey's and the Rev. Mr. Bellows' churches in New-York; Rev. Mr. Farley's in Brooklyn; and St. Luke's and St. Philip's churches in Philadelphia.

**HARNESS, COLLARS, TRUNKS AND VALISES,
OF EVERY DESCRIPTION.**

They would respectfully inform proprietors of horses and others, that they have
obtained Letters Patent, on a valuable and important

IMPROVEMENT IN THE ARTICLE KNOWN AS

POST'S PATENT HOOK AND LEVER HAMES,

In order to apply them to light as well as heavy draft without making them cum-
bersome. By means of a Hook, with Levers attached to the bottom of the Hame, it
keeps it in a fixed position on the Collar and cannot be moved; that fact readily
shows the advantage the horse has in his work, by having the pressure of the Hame
on all parts of the shoulder alike; and the Patent Wool Stuffed Collar yielding to
the draft prevents the horse from galling.—The old style of Hames drawing from
one point on the Collar, and in proportion to the draft, work towards the point of
the shoulders, the result of which is, the animal is cramped and so often chafed,
by not having the free use of the shoulder. A trial of the above articles will show
their superiority by the ease they give the horse in the performance of his work.

The subscribers would inform all those having horses galled, and wishing to re-
lieve them, can do so by applying to them: they will guarantee to do the same un-
der a forfeiture of the Hames and Collars.

The Hames and Collars together or separate will be sold at the lowest possible
rate.—All those that have the Right to manufacture *Post's Patent Hook and Lever
Hames*, wishing to purchase the Right for the Improvement, can have it on reason-
able terms by applying to the *Manufacturers*,

60 Blackstone-street,

BOSTON.

N. B.—Persons wishing to buy the Hames, or the Right, can have satisfactory
evidence as to the utility of the Hames by reference to those that are using them.

It is not to a town, or a city, or state,
 Or a nation, that we our addresses confine,
 All our plans are mature, and our efforts are great,
 O'er ALL CLIMES OF THE EARTH, without rival to shine !

To all nations we speak ! for all nations we toil !
 And we look for support in this glorious strife ;
 We resolve that no obstacle ever shall foil
 The grand aim of our hearts, while we linger in life !

We discard all the snares and the frauds of the trade ;
 We lift up the standard of spotless reform ;
 And we trust that so long as that standard's displayed,
 The smile of the world will defend from the storm.

We repose in the public a confidence strong,
 And believe that they will not neglect our endeavor :
 The success we have met has encouraged us long,
 And we thank and assure them " WE'LL MERIT IT EVER !"

The attention of the public is respectfully solicited to the following extract from the Report of the Committee on Trusses and Abdominal Supporters, at the late Mechanics' Fair, held in this city, September 16th, 1844.

"No. 792. J. W. PHELPS, Boston. One case of Trusses and Supporters. These were of the very best construction, and were all beautifully made. Mr. Phelps has added some decided improvements to the Abdominal Supporter, by means of his spiral springs; and the Committee, from their personal experience of his ingenuity in these matters, can safely recommend these instruments to the public.

SILVER MEDAL."

It is proper to add, that the above Abdominal Supporters were pronounced to be the best constructed instruments of any exhibited at this Fair, and received the highest premium.
